Subject: Jeep Update - 05 JUL 2008

It appears that all the main bugs are worked out a new head gasket solved the overheating and the new flywheel and clutch are working great. I finished the head lights, brake and signals. Ned to work on the horn and the windshield a jeep mongers work is never finished.

Here is a thumbnail of the pictures of my jeep after the 4th of July Parade this Saturday. They are posted at ad5zo.com Jeep, First Parade.

Press on Regardless,
TomE
